# MoN9
The Ninth Mathematics of Networks Meeting

Friday 18th June 2010, University of St Andrews
Deadline for abstracts: 30th April 2010

This interdisciplinary series of meetings allows networking researchers from many backgrounds to meet and exchange ideas in an informal atmosphere. Previous meetings have had presentations from topics including biology, road transport, urban planning and telecommunications networks as well as applied mathematics.The meeting is completely free but registration via email beforehand is compulsory. The theme is the mathematics of mobile networks. This meeting is supported by SICSA http://www.sicsa.ac.uk/ and is held to coincide with "Modelling and analysis of networked and distributed systems" in Stirling on the 17th of June (http://www.cs.stir.ac.uk/events/network-analysis/).

Invitation to speak

MoN is a great opportunity to present your ideas to a wide audience. Attendance in previous years has been around fifty. SICSA will meet reasonable travel expenses for speakers. Please email abstracts to the addresses below by 30th April 2010. Abstracts on the meeting theme of Mobile Networks will be given priority but all abstracts on mathematics of networks are welcome.

Organisers
Keith Briggs (keith.briggs@bt.com)
Richard Clegg (richard@richardclegg.org)
Saleem Bhatti
Mirco Musolesi
